

Helping to Deliver Care... Anytime, Anywhere

DrCloudEHR™ is a purpose-built digital health solution to redefine whole-person care and elevate the standard of value-based healthcare delivery. It seamlessly integrates clinical, executive, and financial data, harnessing the power of actionable intelligence. It is a transformative platform that enhances care coordination, streamlines operations, and fosters a tightly integrated, efficient healthcare delivery network. Its comprehensive approach is strategically designed to increase access to healthcare, facilitate recovery, and optimize therapeutic outcomes, thereby revolutionizing healthcare delivery and management. DrCloudEHR serves a range of health and human services agencies/providers/treatment centers, including mental health/psychiatry, substance abuse/addiction, public health, crisis services, family and children’s services, intellectual/developmental disabilities, education/school health centers, veteran homes, and certified community behavioral health centers.
